THE TWO-STATION SYSTEM

STATION 01

THE WORKHORSE

Commercial twin-warmer drip — built for the break bell.

Plumbed & auto-filling — no reservoirs, no waiting.
24 cups hot and held across two warmers, brewed ahead of every shift break.
Fresh-ground blends curated to your floor — the economical backbone of the program.

STATION 02

THE CRAFT BAR

Plumbed single-serve pod brewer — one cup, your way.

Five cup sizes, strong-brew, and brew-over-ice from a commercial touchscreen brewer.
Back-to-back brewing on a direct water line — no refills, ever.
A rotating pod menu of coffees, teas, and cocoa your crew selects.

POWERED BY GRAND VENDING OS

YOUR FLOOR VOTES THE MENU — CRAVE OR SKIP

Every 27 Grand Coffee program runs on the same demand engine as our vending fleet. Employees scan, taste, and vote **Crave** or **Skip** on the pod lineup — and the menu follows the demand. No stale variety packs — the breakroom earns its menu.
